

UNIVERSITY OF MARYLAND

Commencement

MAY 20-23, 2025

Hail! Alma Mater

Hail to thee, Maryland!

Steadfast in loyalty,

For thee, we stand,

Love for the Black & Gold

Deep in our hearts we hold,

Singing thy praise forever,

Throughout the land.

SPRING COMMENCEMENT / MAY 21, 2025

Dear Graduates,

Congratulations! The conferral of your degree is a milestone achievement that brings great pride to your family, friends and the University of Maryland.

We celebrate this occasion with incredible excitement and enthusiasm. During your time in College Park, you have demonstrated great perseverance along with intellectual and personal accomplishments that have made positive contributions in our community and beyond.

The faculty, staff and administration of the university are confident that you are prepared to move *Fearlessly Forward* and continue a path of excellence. Now is the time to make your mark in addressing the grand challenges of our time, from increasing literacy and civic engagement to the ethical application of artificial intelligence.

Along the way, take heart in your new family of Terp alums, more than 422,000 strong. We are all connected by our love for this university and our dedication to using our knowledge and experiences to better serve the public good.

My very best wishes to you, your family and friends.

Sincerely,

A handwritten signature in dark ink that reads "Darryll J. Pines". The signature is fluid and cursive, with the first name being the most prominent.

Darryll J. Pines
President, University of Maryland
Glenn L. Martin Professor of Aerospace Engineering

On behalf of the University of Maryland Alumni Association, congratulations on your graduation! I'm honored to welcome you into our family of more than 422,000 Terp alums.

You and your fellow graduates have been put to the test, and you've passed with flying colors. As an official alum of the University of Maryland, I want to take the opportunity to make you a promise: Your Alumni

Association is here for you, because we are fearlessly committed to your success.

It is my wish that as alums, you will wear our colors proudly and continue to demonstrate to the world the high-quality education Maryland provides. In turn, Maryland will continue to educate the country's brightest students, pursue cutting-edge research, encourage innovation and entrepreneurship, explore the arts and reach even greater athletic renown. You will always be a Terp and always have a home at Maryland at the Samuel Riggs IV Alumni Center—be sure to visit us when you come back to campus in the years ahead.

I encourage you to make a commitment to your alma mater by joining your Alumni Association. As a member, you will leave your own legacy and show your support for the university that shaped who you are today.

Your Alumni Association membership will help you stay in touch with friends you made on campus, prepare you for your career through networking and professional development, and keep you informed about alumni and campus news. You can also take advantage of our newly expanded member benefits, including career and industry networking and lifelong learning opportunities to help you develop both professionally and personally.

Now go forth with the strength of your Maryland degree and remember that your Alumni Association is here to help you stay active, stay informed, stay connected and move *Fearlessly Forward*.

Go Terps!

A handwritten signature in black ink that reads "Laurie A. De Armond". The script is fluid and cursive.

Laurie A. De Armond '94

Honorary Degree Recipients

**THE HONORABLE
BENJAMIN L. CARDIN**

A third-generation Marylander and proud graduate of the University of Maryland School of Law, Ben Cardin has dedicated his life to public service. He recently concluded three terms in the U.S. Senate, following 20 years in the U.S. House of Representatives and 20 years in the Maryland House of Delegates, including eight years as speaker. Throughout his legislative career, Cardin was known for his civility and ability to work across party lines to foster compromise and achieve results.

Most recently, Cardin served as chair of the Senate Foreign Relations Committee, where he focused on integrating democracy, anti-corruption, good governance, and respect for civil and human rights into American national security. He authored the Global Magnitsky Human Rights and Accountability Act, which transformed the United States' capacity to hold accountable individuals responsible for gross human rights violations and significant corruption.

Cardin also was a senior member of the Senate Finance Committee, where he reformed retirement policy to facilitate savings for lower- and middle-income individuals, continuing his bipartisan efforts from the House Ways and Means Committee. He authored tax provisions to encourage local investments

in affordable housing and worked to expand access to affordable, quality health coverage, telehealth services and guaranteed dental care for children. He also offered proposals to streamline student loan forgiveness for public servants and bolster federal funding for public education. As the former ranking member and chair of the Senate Small Business Committee, Cardin helped draft the Payroll Protection Act, which injected hundreds of millions of dollars into American small businesses during the height of the pandemic, saving countless jobs and helping to avert a recession.

In his advocacy for civil rights and equity, Cardin, who served on the Senate Judiciary Committee through two Supreme Court confirmation hearings, sought to balance the protection of civil liberties with national security. He led efforts to pass legislation prohibiting racial and religious profiling by law enforcement, restoring voting rights for former felons and removing the deadline for ratification of the Equal Rights Amendment.

Cardin is a staunch defender of the Chesapeake Bay and advocates for federal policies that improve the economy, create job opportunities and support small businesses while bolstering the middle class and the most vulnerable citizens.

THE HONORABLE C.A. DUTCH RUPPERSBERGER

Former U.S. Rep. C.A. Dutch Ruppersberger served Maryland's 2nd District, which includes much of Baltimore and Carroll counties and part of Baltimore City, from 2003-25. He was a longtime member of the House Appropriations Committee and served a record 12 years on the House Intelligence Committee, including four as ranking member, during numerous high-profile national security moments including the capture of Osama bin Laden, diplomatic attacks in Benghazi and Edward Snowden leaks. He and the then-committee chairman, Republican Rep. Mike Rogers, became the first dual recipients of the William Oliver Baker Award from the Intelligence and National Security Alliance for their bipartisan and pragmatic leadership.

A champion for veterans and their families, Ruppersberger served as chairman of the U.S. Naval Academy Board of Visitors and co-chair of the bipartisan House Army Caucus. In 2003, after learning deployed troops paid out of pocket for connecting flights home, he created Operation Hero Miles, enabling patriotic Americans to donate frequent flyer miles. Operated by the nonprofit Fisher House, the program today provides airline tickets to wounded and ill service members who are undergoing treatment at a military or Veterans Affairs medical center, as well as tickets for their families. In 2011, he authored legislation

creating the Hotels for Heroes offshoot allowing Americans to donate hotel reward points for the same purpose.

Ruppersberger decided to run for office after a near-fatal car accident while working as a Baltimore County assistant state's attorney. Thanks to the dedication of doctors at the R Adams Cowley Shock Trauma Center at the University of Maryland, he survived and campaigned to support the health care system that saved his life. He served as longtime vice chairman of the center's board of visitors.

Ruppersberger was elected to the Baltimore County Council in 1985 and 1989, and chosen twice as chairman. He was elected Baltimore County executive in 1994 and 1998, and under his leadership, *Governing Magazine* named the county among the nation's four best-managed. In 2016, he created the bipartisan House Municipal Finance Caucus to advocate for the tools state and local governments need to fund community projects.

A Baltimore City native, Ruppersberger attended Baltimore City College and the University of Maryland, where he played lacrosse. He earned his Juris Doctor from the University of Baltimore Law School.

He has been married for 55 years to his high school sweetheart, the former Kay Murphy. They have two children and five grandchildren.

University Medalist

VAINAVI GAMBHIR

Vainavi Gambhir hasn't yet enrolled in medical school, but she's already making an impact on the health of children.

While working with the National Institutes of Health's National Cancer Institute's Pediatric Oncology Branch, she authored three workbooks for children and families dealing with a bleeding disorder and presented them at two international conferences. During a Fulbright Canada-Mitacs internship, she studied rhabdomyosarcoma, a rare cancer, at a major Quebec lab. And as a health care intern for U.S. Sen. Chris Van Hollen and former Sen. Ben Cardin, both of Maryland, she routinely advised the health care team and prepared policy memoranda for her bosses.

"I want my impact in health care to extend beyond the hospital," she said. "I want a seat at the decision-making table, advising on health interventions that put children first."

This fall, Gambhir will enroll in the Icahn School of Medicine at Mount Sinai following early admission, aiming to become a physician and health policy advocate with specialties in pediatrics and holistic wellness.

The biological sciences major from Bethesda, Md., amassed other remarkable achievements as an undergrad. While shadowing Jay A. Perman, chancellor of the University System of Maryland (USM) and a physician, Gambhir inspired his pediatric gastroenterology clinic to adjust its

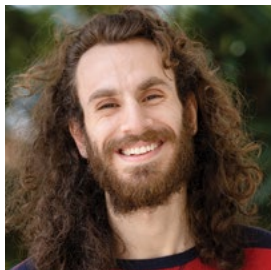

approach by communicating more clearly with patients and encouraging conversation. She displayed "surprisingly acute sensitivity" with "remarkable humanity and depth of thought," Perman said.

Gambhir's accomplishments go beyond medicine. She served as president of the USM Student Council, representing more than 170,000 undergraduates and graduates across 12 Maryland public universities, and developed a student speaker forum that offered space for innovative ideas and sometimes-competing opinions. She also co-created the USM Board of Regents Student Excellence Scholarship program that distributes \$24,000 annually.

In Annapolis, Gambhir serves as executive director of the Legislative Asian American and Pacific Islander Caucus at the Maryland General Assembly. And in her spare time, she creates award-winning acrylic pieces in the Indian subcontinent's ancient Madhubani folk tradition, portraying children overcoming disease and societal pressures. A certified yoga instructor, Gambhir also introduced a yoga program at the NIH's Children's Inn, a residence for pediatric clinical patients, to foster psychosocial wellness.

She called her enrollment at UMD "the best decision of my life, and I will forever be grateful. I don't think I'd have this voice or lead in the way I'm able if it weren't for this institution."

Student Speaker

GREGORY GARIN

Gregory Garin arrived at his first University of Maryland swing dancing class with trepidation, but the jazzy beats soon inspired him to improvise some moves.

“You make decisions on the fly, communicating with your partners to create something,” said Garin, calling swing dancing one of the most enjoyable experiences of his life. “At first I was self-conscious, but I was reassured by people who smiled and told me that it was OK to make mistakes.”

Meaningful connections, words of encouragement, new experiences: Garin hopes to share and develop all of those as he embarks on a career as an elementary school teacher.

Garin, who is graduating with a bachelor’s degree in agricultural science and technology, plans to enroll this summer in the Master of Education program at UMD’s College of Education.

“When I started, I wasn’t sure how my newfound passion and excitement for plants, animals and the environment mapped onto my future,” said the Columbia, Md., native, who transferred to UMD after receiving an associate degree from Howard Community College. Now, “my experiences and classes at UMD have helped me collect my bearings regarding what I ultimately want to do with myself.”

Garin’s classwork took him to a local

farm, where he learned about soil erosion, water runoff and the effects of poor farming decisions; and to Frederick County, Md., where he explored bovine grazing systems designed to ward off parasites and improve quality of life. At a Pennsylvania farm, Garin witnessed “no till” agriculture, where soil remains undisturbed, sustaining the life of microorganisms that promote food health.

He worked closely with Professor Ray Weil, an internationally recognized expert on soil science, nutrient cycling and cover crop systems, who recalled his intensity as he explored deeper agriculture ideas.

“He connected the way the farmer allowed weeds to grow in some areas to the impact of biodiversity on ecological pest control in others,” said Weil. “He seemed to relish every challenge I put forward.”

Though environmental science is Garin’s passion, elementary education is his calling, a discovery he made as an assistant teacher at a Montessori school. While agriculture is not a traditional elementary school subject, Garin looks forward to introducing concepts about farming and sustainability into his classroom.

“Food is an exciting and important part of literally every person’s life,” he said. “I’d love for my future students to develop an awareness of agriculture and the world around them.”

Commencement Speaker

KERMIT THE FROG

Kermit the Frog, a star of stage, screen and swamp, has spent his entire career dedicated to this simple dream: “I want to sing and dance and make people happy. It’s the kind of dream that gets better the more people you share it with.”

Since 1955, this famous frog has shared that dream with people—as well as pigs, bears, chickens and whatever—through television (including “The Muppet Show” and “The Muppets”), eight motion pictures (including “The Muppet Movie,” “The Muppet Christmas Carol” and “Muppets Most

Wanted”), several best-selling books, the Webby Award-winning “Muppets Bohemian Rhapsody,” live on-stage performances (including “The Muppets Take the Hollywood Bowl” and “The Muppets Take the O2”) and countless guest appearances. As an amphibian who grew up in streams, Kermit recently returned to the exciting world of streaming on Disney+ with The Muppets’ first unscripted series, “Muppets Now,” and first Halloween special, “Muppets Haunted Mansion.”

Kermit the Frog is performed by Matt Vogel.

Doctoral Degrees

The doctoral degree is the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner’s degree and the research degree. The first type represents advanced training for the practice of various professions, principally doctor of audiology, doctor of medicine, juris doctor, doctor of pharmacy and doctor of veterinary medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees on March 9, 1841.

Master's Degrees

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts and Master of Science degrees in fields other than agriculture.

Bachelor's Degrees

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. Maryland Agricultural College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts and Bachelor of Science degrees in 1862.

Special Recognition

SENIOR MARSHALS

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administration and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

Extra special thanks go to the Office of the Registrar and the Graduate School.

Heartfelt thanks go to the many staff who assist with the main and individual college and school ceremonies. These efforts are greatly appreciated.

DO GOOD NOW

The University of Maryland is proud to be the nation's first Do Good Campus. As a global leader in advancing social innovation, philanthropy and nonprofit leadership, we remain fiercely committed to our mission of service.

We created the Do Good Institute to serve as the campus hub of social impact and innovation and launched the Do Good Challenge and Do Good Accelerator to scale up the impact of student projects and ventures. We invested in new research on civic engagement and expanded opportunities for students to learn about and practice giving back. And we are just getting started.

As graduates of the university, you are now agents of change and progress. Your experience here has equipped you to do good in your professional and personal lives. You are ready to help build a Do Good world.

For more information, visit dogood.umd.edu.

Congrats, Terp Grads!
